Children	12"/16"/20"/24"	35-65	2.5-4.5	241-448

Most Specialized bicycle tires are covered by pressure rating ranges based on tire size, however, certain tires have different pressure ranges based on the intended use of the tire. To determine the correct tire pressure range for a specific tire, please refer to the tire pressure range specified on the sidewall of the tire, or refer to www.specialized.com for a list of tire pressures by tire model.

HANDLEBAR GRIPS:

WARNING! Damaged handlebar grips or handlebar end plugs should be replaced, as damaged grips and/or end plugs can expose the tube ends of the handlebar, which have been known to cause injury.

This warning is particularly important for children's bikes, which should be inspected regularly to ensure that adequate protection for the ends of the handlebar are in place.
